SUMMARY:

Software Developer with a marketing background and experience in the event industry, education, and wine. I am a passionate creator of art, photography, and lover of the great outdoors. I am looking for an opportunity to learn and create more.

APPLICATIONS:

Towers is an online platform for events. A user can create events, reserve a ticket to an event, and view other users who are attending the event.

[See the Code](#) • [Live Site](#)

OnTrak is a habit tracker application I made with four other developers. OnTrak features badges and statistics generated by the users habits.

[See the Code](#) • [Live Site](#)

Planit is an application used to implement SCRUM practices into your work or personal life. Users can create projects, sprints, tasks, and comments.
